Lecta

Lecta is a leading manufacturer and distributor of specialty papers for labels and flexible packaging, coated and uncoated paper for publishing and commercial printing, along with other high value-added print media.

Metallized papers, self-adhesive materials, coated and uncoated papers, thermal, carbonless and cast-coated papers... Lecta boasts a wide range of diverse, environmentally responsible and innovative products and is recognized as a premier supplier of paper solutions worldwide.

With a manufacturing capacity of close to 2 million tons, Lecta produces pulp, base paper and finished products with today's latest technology. An integrated production system and in-depth product expertise are key elements of our business model. Lecta is also active in the distribution business in Southern Europe, with its own merchants in Spain, Portugal, France and Italy.

Lecta is a multinational group with nearly 3,300 employees. From its creation until today, it has invested close to 1 billion euros in upgrading and increasing the competitiveness of its manufacturing sites, improving its environmental performance and strengthening its market position.

Manufacturing Sites

Lecta currently has 7 state-of-the-art mills in Spain, France and Italy for the production of specialty papers, coated woodfree paper and base paper. Lecta's mill in Zaragoza (Spain) also includes a pulp manufacturing plant.

All of Lecta's mills are certified to the strictest environmental, quality, and health and safety management standards: ISO 14001, EMAS, ISO 50001, ISO 9001 and OHSAS 18001.

With the aim of guaranteeing the sustainable sourcing of the wood used to manufacture our papers, Lecta has certified the Chain of Custody of all its mills to PEFC™ and FSC® standards.

Sales Organization

Lecta has sales offices and its own merchants in 10 countries, giving us a thorough understanding of market needs and enabling us to provide the best service to our customers.

As an organization focused on serving our customers, all areas of the company are geared to supporting our main market segments: specialty papers, distribution and fine papers. This enables us to provide a timely, appropriate response to the 22,000 customers who rely on our products worldwide.

Sustainability

Lecta is firmly committed to sustainability. It is the principle that guides our business activity, ensuring that it is respectful towards the environment and the society that surrounds us.

Years of effort and nearly 135 million euros allocated to environmental projects since 2006 have enabled us to obtain the strictest environmental management and quality certifications, thus minimizing our environmental footprint. Currently, all Lecta manufacturing sites hold ISO 9001 quality certification, ISO 14001 and EMAS environmental management certifications, ISO 50001 energy management certification and OHSAS 18001 health and safety certification.

Furthermore, Lecta is able to guarantee the sustainable origin of the wood used to manufacture its products, in strict compliance with new EU Timber Regulation and PEFC and FSC Chain of Custody standards, thereby offering maximum credibility and transparency in its wood sourcing operations.

One of the key elements that defines Lecta's commitment to society and good business practices is active membership in the United Nations Global Compact, the world's largest Corporate Social Responsibility initiative.

Lecta actively collaborates in diverse initiatives that promote corporate social responsibility, transparency and sustainability such as Sedex, CDP, Paper Profile, Print Power and Two Sides.
