NOTES

1. Basis of preparation and accounting policies

1.1. Basis of preparation

The interim condensed consolidated financial statements of Lecta Group for the six months ended 30 June 2020 have been prepared in accordance with IAS 34 Interim Financial Reporting.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2019.

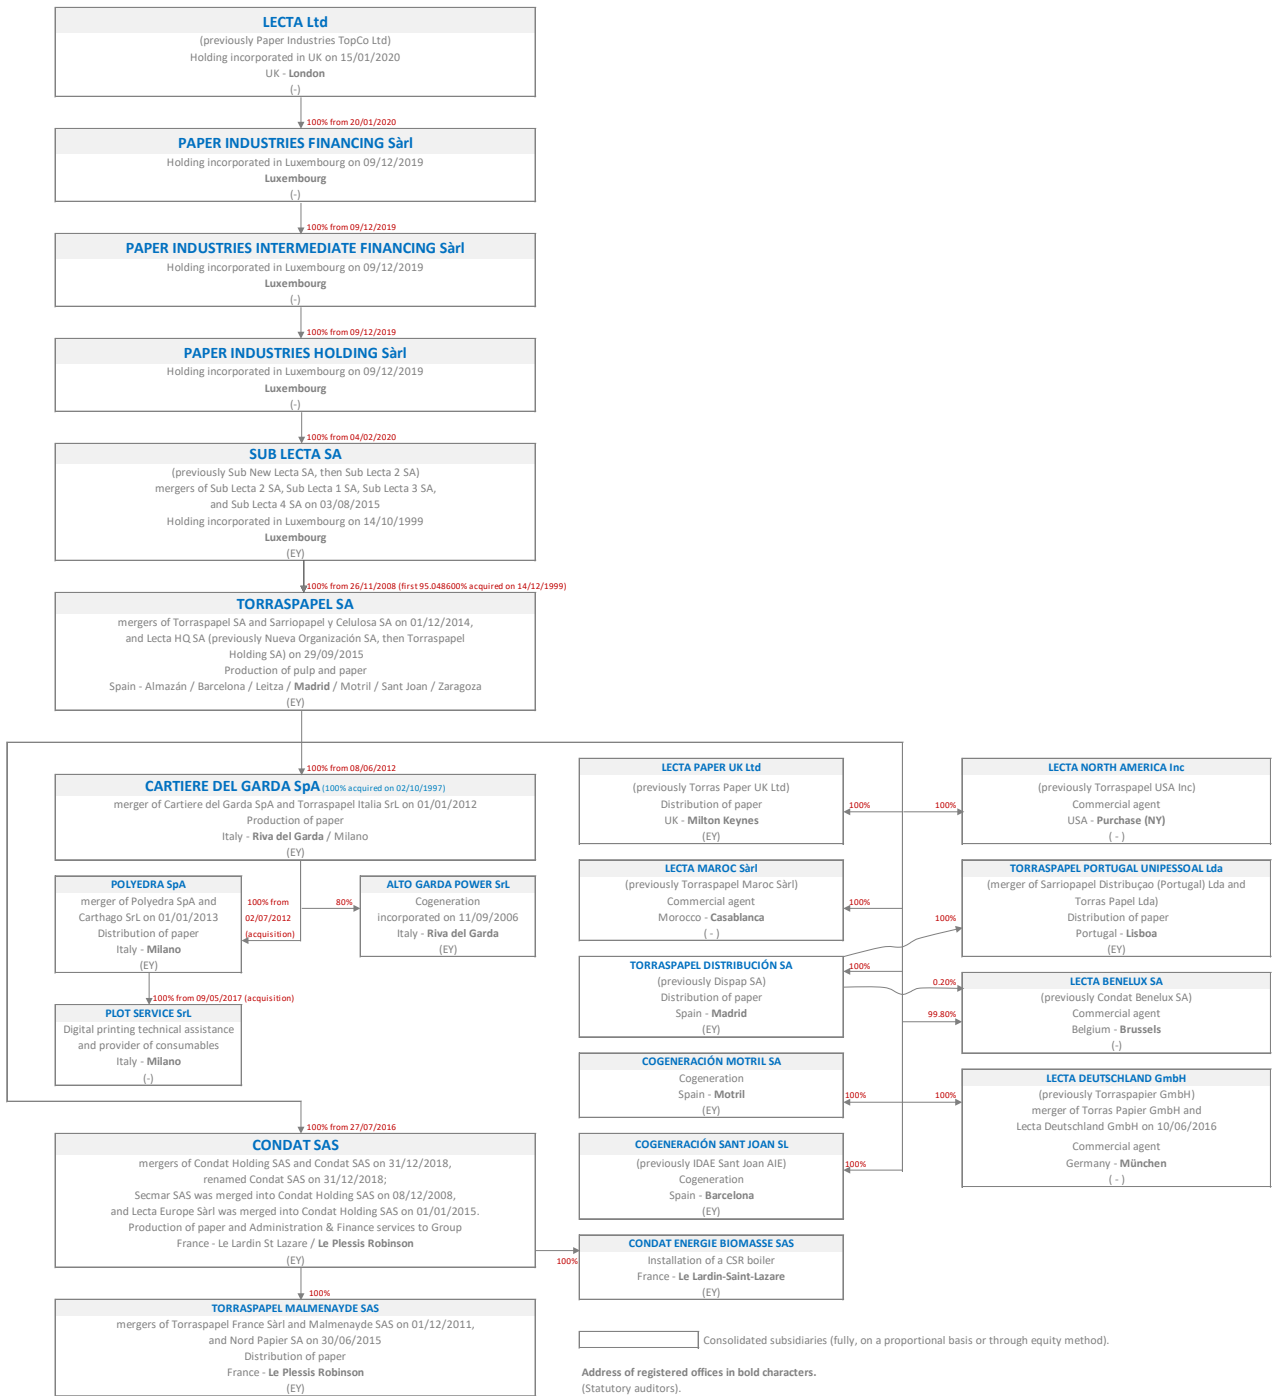

1.2. Significant accounting policies

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2019, except for the adoption of new standards effective as of 1 January 2020. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Several amendments and interpretations apply for the first time in 2020, but do not have an impact on the interim condensed consolidated financial statements of the Group.

2. Lecta Group as at 30 June 2020

- (a) Lecta Group has no control and no significant influence in these companies.
- (b) Immateriality.

3. Lecta capital structure and Significant events

3.1. Recapitalization

3.1.1. Main steps

On 1 November 2019, Lecta SA announced that a majority of the holders of its Notes issued in 2016 (“Noteholders” and “2016 Notes”), holders of the majority of the debt under its RCF, and the Group had executed a Lock-Up Agreement (“LUA”). Those parties agreed to support the implementation of a comprehensive recapitalization transaction (“Recapitalization”) aiming at materially deleverage the Group’s balance sheet and enhance its liquidity position to allow it to continue its transformation into a specialty paper company, to be controlled by the Noteholders following the completion of the Recapitalization.

On 27 November 2019, Lecta SA announced that it had received consents to the LUA from (i) 83% of the aggregate outstanding principal amount under the 2016 Notes and (ii) 69% of the outstanding principal amount under the RCF. These consents exceeded the thresholds required under the LUA. Accordingly, Lecta had to seek to effect the Recapitalization via an English scheme of arrangement relating to the 2016 Notes (the “Scheme”) once certain other conditions to launch the Scheme had been achieved.

On 5 December 2019, Lecta SA announced that it had received over 92% consent to the Recapitalization from the Noteholders. In addition, it announced that conditions to launch the Scheme via the issuance of a Practice Statement Letter (“PSL”) were satisfied. The PSL - a copy was available at www.lucid-is.com/lecta, and via Euroclear Bank SA/NV and/or Clearstream Bank SA, and the Luxembourg Stock Exchange - enabled the Noteholders to consider the issues to be put before a UK Court at a convening hearing.

By an order dated 19 December 2019, the UK Court had directed that a meeting of the company and the Scheme Creditors had to be convened on or about 23 January 2020 for the purpose of considering and, if thought fit, approving the Scheme proposed.

On 23 January 2020, the meeting was held, and the required majority of the Scheme Creditors approved the Scheme.

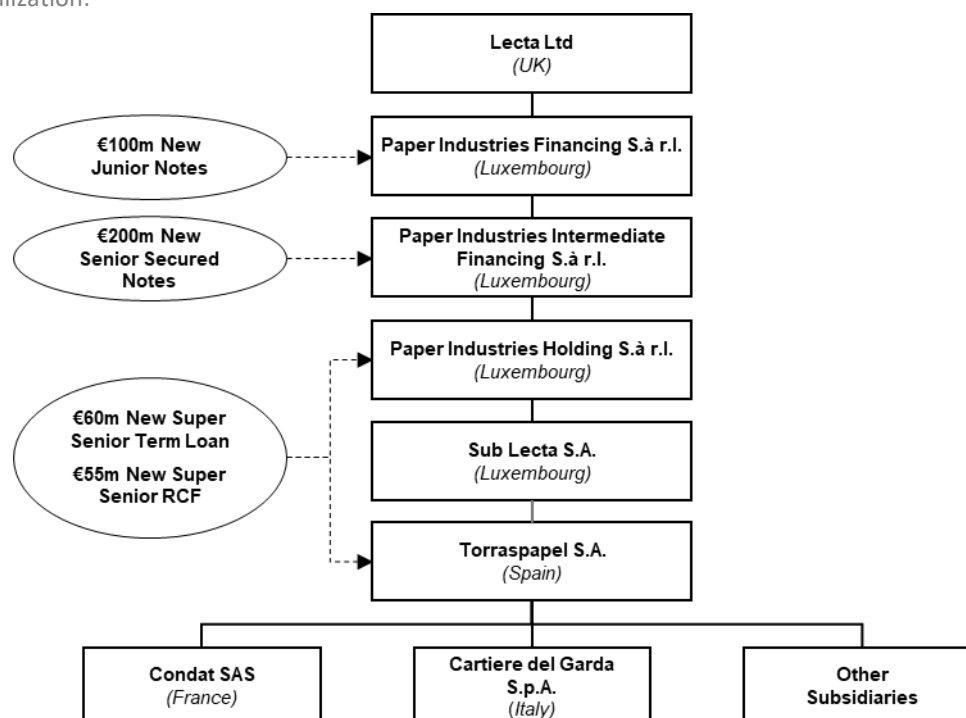

On 28 January 2020, the UK Court sanctioned the proposed Scheme, and an order was delivered to the registrar of companies on 30 January 2020.

On 4 February 2020, the Recapitalization was implemented via the transfer of Sub Lecta SA to be indirectly held by Lecta Ltd - a newly incorporated UK company and new parent company of the Group - and the exchange of 2016 Notes to new longer dated debt instruments and equity. The Recapitalization resulted in an improved capital structure for the Lecta Ltd Group. In addition, Lecta Ltd Group announced that it had entered into an agreement with NatWest Markets Plc to provide EUR 115 M super senior facilities (“New SSF”) – consisting of a super senior EUR 60 M term loan and a super senior EUR 55 M RCF – to refinance and replace the existing EUR 65 M super senior RCF. Following the Recapitalization, Lecta Ltd Group benefits from:

- A delevered capital structure reflecting the conversion of EUR 600 M of 2016 Notes into new debt and equity instruments and the payment of a consent fee to eligible holders of the 2016 Notes in connection with the Recapitalization, consisting of:
 - EUR 200 M senior secured notes due 2025, bearing an interest rate of 3-month Euribor (with a floor at 0%) + 6.000%
 - EUR 100 M junior notes due 2028, bearing an interest rate of 3-month Euribor (with a floor at 0%) + 0.25% cash + 7.000% PIK (annual capitalization); and
 - 100% of the equity in Lecta Ltd
- Materially lower annual cash interest burden (reduction in excess of EUR 20 M)
- Longer-dated maturities which provide the Lecta Group with increased runway to complete its ongoing transformation effort
- Significant incremental liquidity through (i) new / upsized receivables financing arrangements and (ii) incremental borrowing capacity under the SSF; and
- A new shareholder base featuring institutions with extensive experience investing in the sector.

In addition, different measures of support of the Group’s operations in France from the French authorities were confirmed shortly after the implementation of the Recapitalization.

The following chart outlines the corporate and financing structure of the Lecta Ltd Group after giving effect to the Recapitalization:

As at 31 December 2019 and until the Recapitalization implemented on 4 February 2020, Lecta SA was the parent company of the Group. Since the Recapitalization, Lecta Ltd is the new parent company of the Group, and Lecta SA is no longer part of the Group.

3.1.2. Accounting treatment

IFRS 5 Non-current assets held for sale and discontinued operations

Before 23 January 2020, with the positive vote of the Scheme Creditors, and before the sanction of the Scheme by the UK Court on 28 January 2020, it was not highly probable that the Recapitalization project would become effective. Moreover, because of the pledge on Sub Lecta SA shares granted by Lecta SA to the 2016 Noteholders and RCF lenders, effective on 31 December 2019, Lecta SA was not able to sell its participation in Sub Lecta SA. This pledge was released only on 4 February 2020. Consequently, before 4 February 2020, the assets (or disposal group) were not available for immediate sale because of the pledge.

As a conclusion, IFRS 5 criteria were not met at 2019 year-end: at that date, the disposal was not highly probable and the assets were not available for immediate sale due to the pledge on Sub Lecta SA shares.

IFRS 9 Financial instruments / fees & costs in relation with the Recapitalization

IFRIC 19 Extinguishing financial liabilities with equity instruments

The transaction is viewed as an exchange of old debt against two different instruments, a new debt and new equity instruments.

After analysis, it was concluded that on or around the Recapitalization date:

- The old debt was quoted on an active market for around 50% of its principal amount (EUR 600 M x 50% = EUR 300 M);
- The new debt was quoted on an active market for around 100% of its principal amount (EUR 300 M); hence, the new debt has to be recognized for its principal amount (EUR 300 M);
- The new equity instruments, not quoted, had to be recognized by difference to reflect the fair value of the financial liability extinguished [EUR 300 M - EUR 300 M = EUR 0 M];
- The difference between the carrying amount of the old debt (EUR 600 M principal + EUR 20 M accrued interests = EUR 620 M) on one hand, the new debt and the new equity instruments (EUR 300 M + EUR 0 M = EUR 300 M) on the other hand, i.e. a gain of EUR 320 M, was reported as “financial income” in the Income statement (see Note 12);
- The fees & costs incurred in the Recapitalization had to be expensed and were reported as “non-recurring items” in the Income statement (see Note 6);
- The remaining fees & costs included in the former financial debt, amounting to EUR 6.2 M, also had to be expensed and were reported as “financial expense” in the Income statement on 4 February 2020 (see Note 12).

3.2. Organization efficiency program

The integration process covers Lecta industrial operations in Italy, France and Spain, as well as the paper distribution ones in the same countries and, additionally, Portugal. Within the Organization efficiency program, Lecta planned several cost reduction projects.

For the six-month period ended 30 June 2020 the restructuring cash cost associated to Lecta efficiency programs was EUR (1.8) M, reported as “non-recurring items” in the Income statement (see Note 6).

Through Organization Efficiency Program, Lecta aims at maintaining the labor costs stable in spite of salary inflation and new job positions in relation with the investments in Specialties.

3.3. Goodwill impairment

The Covid-19 pandemic led the Group to revise its 2020-2023 cash flow projections. The main impacts of the revision consisted in reductions in volume of sales and margin on variable costs.

In consideration of the integrated organization of Lecta focused on production and sale of paper only, the volume of intragroup transactions, the interchangeability of products between mills, Lecta is considered one cash-generating unit. Consequently, goodwill was tested for impairment at Group level only. This is consistent with the Note 4 prepared in accordance with IFRS 8 “Operating Segments”.

The recoverable amount of this cash-generating unit has been determined based on value-in-use calculation (see Note 1.21 to the Annual report). This was based upon revised and approved 2020 to 2023 cash-flow projections part of Lecta financial plan.

As mentioned in Note 1.01 to the Annual report, Lecta Group Management made assumptions for the years to come. Conservative assumptions on the annual growth rate were applied to the revised cash flow projections beyond 2023. The WACC rate applied to cash flow projections was 9.5% (like in 2019 and 2018).

As at 31 March 2020, the test led to the total impairment of the goodwill, i.e. a charge of EUR (118) M reported as “non-recurring items” in the Income statement (see Note 6).

3.4. Derecognition of some Deferred Tax Asset

The Covid-19 pandemic led the Group to revise its 2020-2023 cash flow projections. The main impacts of the revision consisted in reductions in volume of sales and margin on variable costs.

As at 31 March 2020, this revision led to the derecognition of EUR (13) M of deferred tax asset on tax losses reported as “income tax” in the Income statement (see Note 7).

4. Information by Operating Segment

It is important to note that the activity of Lecta was strongly impacted by the Covid-19 pandemic as from mid-March 2020.

Lecta Group applied IFRS 8 “Operating Segments” as of 1 January 2009. The Chief Operating Decision Makers analyze the group activity through three lines of products and services, within a unique operating segment, “**production and sale of paper**”.

The definition of **products and services** is:

- Coated Woodfree consists in the sale of fine paper manufactured by Lecta. The Coated Woodfree is quasi exclusively sold to third parties;
- Specialties consist in the sale of specialty papers manufactured by Lecta. The Specialties are quasi exclusively sold to third parties;
- Purchased Products consist in the sale of products purchased from third parties.

For products and services reporting, definitions are as follows:

- Net sales of Paper consist of Revenue reported in the Income statement less Sales of energy (see Note 5). The rationale is that the activity of Lecta is to produce and sell paper. In this context, Lecta operates cogeneration plants that burn gas and produce electricity and steam. The production of steam is internally consumed, while the production of electricity can be internally consumed or sold to the grid. For “Operating Segment” reporting, the sale of electricity to the grid is not considered as revenue but as reduction in energy cost to produce paper.
- EBITDA is the EBITDA reported in the Income statement. There is no significant non-cash expense within the EBITDA.
- Non-current assets is the sum of Property, plant and equipment, Investment properties, Other intangible assets and Biological assets reported in the Statement of Financial Position. Following items are not included: Goodwill, Investment in associates, Available-for-sale financial investments, Deferred income tax assets, Non-current income tax receivable, Other non-current receivables and Non-current assets held for sale.

The intra-segment and inter-segment sales are made at market price.

4.1. Information about profit or loss

The following table compares sales and profit information of the products and services for the six-month period ended 30 June 2020, with the prior year. It considers the above definitions:

Property, plant and equipment

The charge of EUR (18) K is due to a capital loss on the disposal of old information processing equipment.

Goodwill

The charge of EUR (118,252) K is due to the impairment of Goodwill (see Note 3.3).

Unlisted securities

Following the disposal of Liaison shares made in December 2018, reversal of the impairment on non-consolidated shares of EUR 132 K (see also Note 10).

Organization efficiency program (see Note 3.2)

The Organization efficiency program is a body of several plans, aimed at improving the group's competitiveness.

Recapitalization (see Note 3.1)

The fees and costs associated to the Recapitalization of the Group are reported in this line. They amounted to EUR (32,209) K in 2020.

Total	300,000,000	565,862
Earnings per share (in EUR)		
Basic	0.4	(24.2)
Diluted	0.4	(24.2)

“Basic earnings per share” were computed on the basis of the weighted average number of shares issued after deduction of the weighted average number of shares owned by Lecta Group consolidated companies (none for these two years).

“Diluted earnings per share” took into account share equivalents having a dilutive effect after deduction of the weighted average number of share equivalents owned by Lecta Group consolidated companies. The dilutive effect of warrants was calculated using the notional investment method for which the Net earnings were adjusted to include a notional after tax interest income on proceeds coming from the sale of warrants.

Nota

IAS 33 paragraph 43 requires that the diluted earnings per share does not assume conversion, exercise or other issue of potential ordinary shares that would have an anti-dilutive effect on earnings per share.

Cash flow hedge is used to cover the exposure to variability in cash flows that is attributable to a particular risk associated with a forecast transaction.

In Lecta Group, these are foreign currency, interest rate and energy price hedging instruments (forward, option, cap, floor, collar, swap...). The portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is recognized directly in the line "Net incomes (expenses) recognized directly through Equity" against "Other receivables" or "Other payables". It is removed from Equity when the hedged item affects the Income statement. The ineffective portion of gain or loss is immediately recognized in the line "Non-recurring items" of the Income statement (see Note 6).

Unlisted securities: following the disposal of Liaison shares made in December 2018, reversal of the adjustment of fair value on non-consolidated shares of EUR (132) K in 2019(see also Note 6).

11. Property, plant and equipment and Investment properties

During the six-month period ended 30 June 2020, Lecta Group acquired Property, plant and equipment with a cost of EUR 22.8 M compared to EUR 31.1 M in the same period of 2019.

As at 1 January 2019, following the implementation of IFRS 16 "Leases", Property, plant and equipment included EUR 24.8 M of Right-Of-Use assets.

- "Interest on Floating and Fixed Rate Notes" of EUR (3,697) K consisted in the interest expense accrued until 4 February 2020 of the Notes issued in 2016;
- "Amortization of issue costs on borrowings" of EUR (6,182) K consisted in the remaining fees & costs included in the Floating and Fixed Rate Notes issued in 2016;
- "Financial income in relation with the Recapitalization" of EUR 319,949 K consisted of the Floating and Fixed Rate Notes (principal and accrued interests) capitalized on 4 February 2020.

Reclassification in the Cash flow statement:

During the six-month period ended 30 June 2020, the interest paid was EUR (14, 4) M, consisting of EUR (5.9) M in 1Q 2020 and EUR (8.4) M in 2Q 2020.

During the six-month period ended 30 June 2020, the proceeds from borrowings net of repayment of borrowings was EUR 112.5 M, consisting of EUR 78.5 M in 1Q 2020 and EUR 34.0 M in 2Q 2020.

13. Capital commitments

As at 30 June 2020, Lecta Group had firm commitments in relation with orders of Property, plant and equipment net of advances to suppliers of EUR 50.7 M.

These commitments were allocated as follows:

- EUR 43.3 M in France
- EUR 7.4 M in Spain

14. Related party disclosures

14.1. Transactions with non-consolidated companies

These companies were non-consolidated because of absence of control or immateriality (see Note 2.3)
All the transactions with related parties were made on an arm's length basis.

15. Hedging derivatives on foreign currencies

The Lecta Group operations are impacted by the fluctuations of the non-euro currencies, mainly USD, CAD and GBP.

At 30 June 2020, ordinary sales and purchases were specifically hedged through:

- Forward agreements on realized sales in foreign currencies: EUR 12.6 M
- Forward agreements on realized purchases in foreign currencies: EUR 3.3 M

The impact of these contracts has been accounted for as fair value hedging, hence recognized in the Income statement (see Note 1.36 to Annual report).

At 30 June 2020, there were no options on future sales in foreign currencies and on future purchases in foreign currencies. Therefore, nothing had to be fair valued through Income statement.

16. Hedging derivatives on interest rates

At 30 June 2020, there were no hedging derivatives on interest rates.

17. Hedging derivatives on raw materials prices

At 30 June 2020, there were no hedging derivatives on raw materials prices.

18. Events after the Statement of Financial Position date

18.1. Lecta Group Recapitalization of 16 July 2020

On 4 February 2020, Lecta Ltd and its subsidiaries completed the first portion of the recapitalization of the Group's balance sheet, which included:

- The equitization of 50% of the Group's EUR 600 M senior secured notes issued in 2016,
- The issuance of EUR 200 M Senior Secured Notes due 2025,
- The issuance of EUR 100 M Junior Notes due 2028,
- The refinancing of EUR 65 M of Super Senior RCF with a new EUR 115 M Super Senior Facility Agreement ("SSFA"),

and simultaneously, the Group secured new factoring lines in France and Spain.

While this recapitalization resulted in a significant deleveraging and the simultaneous provision of new liquidity, the Group has been recently impacted by the Covid-19 pandemic and tighter working capital terms. In this context, the Group has applied extensive operational actions to mitigate the impact of Covid-19 and preserve liquidity. In parallel, Lecta Ltd has been in discussions with its existing security holders and relationship banks.

On 16 July 2020, Lecta Ltd and its subsidiaries completed the second portion of the recapitalization of the Group's balance sheet, which included:

- A cash capital increase of EUR 50 M
- The issuance of EUR 55.5 M new Senior Secured Notes due 2025 with an OID of 10%
- The implementation of EUR 50 M ICO loans guaranteed by the Spanish State
- The cancellation in full of EUR 100 M Junior Notes issued in February 2020,

In addition, the Group has obtained from its banks the replacement of short term uncommitted confirming lines with EUR 40 M long dated committed ones, which will provide additional stability to working capital management, and the removal of the EUR 115 M SSFA covenants during the next 24 months.

Following this second portion of the recapitalization, more than 75% of Lecta Ltd share capital is held by funds managed and advised by Apollo Global Management, Cheyne Capital, and Tikehau Capital.

The recapitalization will allow the Group to not only overcome the challenges presented by the Covid-19 pandemic, but also to continue its transformation and emerge with a solid liquidity position and healthy balance sheet.

The following table presents the Pro-forma balance sheet of the Group as at 30 June 2020, including the second portion of the recapitalization completed on 16 July 2020.
