NOTES

1. Basis of preparation and accounting policies

1.1. Basis of preparation

The interim condensed consolidated financial statements of Lecta Group for the nine months ended 30 September 2019 have been prepared in accordance with IAS 34 Interim Financial Reporting.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2018.

1.2. Significant accounting policies

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2018.

New amended IAS or interpretations effective as of 1 January 2019:

- **IFRS 16 "Leases"** was issued in January 2016. It replaces IAS 17 "Leases". The major change introduced by the new Standard is that leases are brought onto companies' balance sheets, increasing the visibility of their assets and liabilities. IFRS 16 removes the classification of leases as either operating leases or finance leases (for the lessee - the lease customer), treating all leases as finance leases.

Lecta Group adopted IFRS 16 on 1 January 2019, using the modified retrospective approach and therefore the comparative information was not restated and continues to be reported under IAS 17 and IFRIC 4 "Determining whether an arrangement contains a lease".

The effect of the application of IFRS 16 was as follows:

- In the Statement of financial position, as at 1 January 2019, the Group recognized Right-Of-Use ("ROU") assets and Lease liabilities of circa EUR 24.8 M, reported in Property, plant and Equipment (see Note 11) on the one hand, Interest-bearing borrowings and Current portion of interest-bearing borrowings (see Note 12) on the other hand. The lease liabilities were measured at the present value of the remaining lease payments, discounted at the incremental borrowing rates of the lessees, and the ROU assets were measured at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments. The Group allocated the consideration in the contract to each lease component and separated non-lease components if these were identifiable.
- In the Income statement, for the nine months ended 30 September 2019, the Other operating costs except non-recurring items decreased by circa EUR 4.1 M, while the Depreciation and the Financial expense increased by circa EUR 3.7 M and EUR 0.7 M respectively.
- In the Cash flow statement, for the nine months ended 30 September 2019, the Net cash flow from operating activities increased by circa EUR 3.4 M, the Net cash flow from financing activities decreased by circa EUR 3.4 M, and there was no impact to Total cash flow.

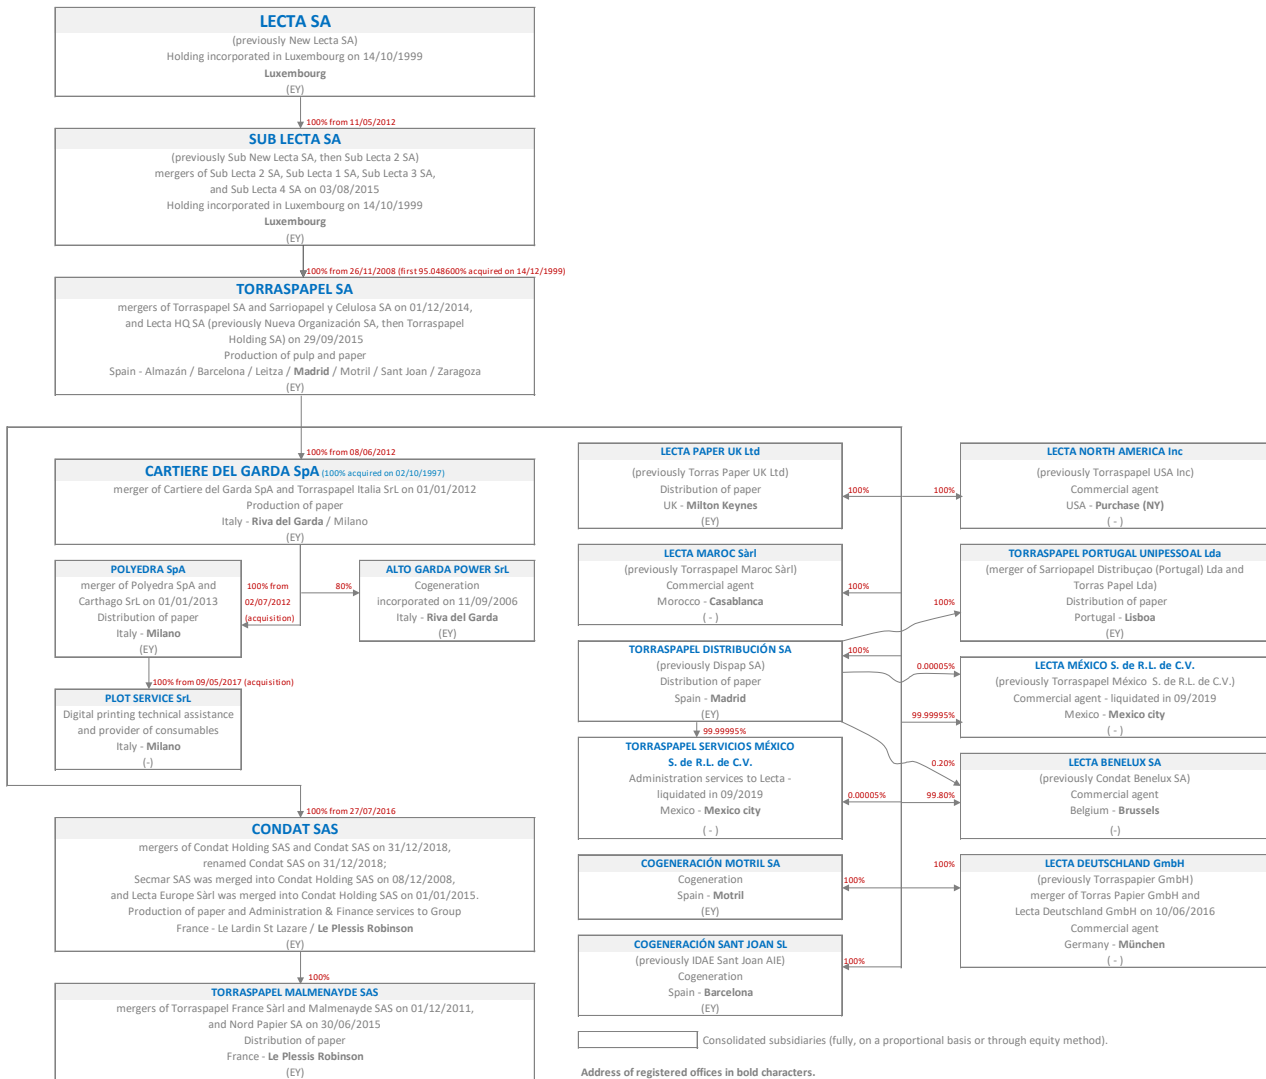

The reconciliation of the Operating lease commitments reported under IAS 17 "Leases" as at 31 December 2018 and the Lease liabilities reported as at 1 January 2019 is as follows:

(in EUR M)

Operating lease commitments as at 31 December 2018	28.1
(see Note 35.2 to the Group's annual consolidated financial statements as at 31 December 2018)	
Weighted average incremental borrowing rate as at 1 January 2019	4.00%
Discounted operating lease commitments as at 1 January 2019	25.1
Less:	
Commitments relating to short-term leases and leases of low-value assets	0.3
Add:	
Commitments relating to leases previously classified as finance leases	0.5

In italic: Non-strategic companies.

Other companies are considered as strategic, even if they are not consolidated because of the following reasons:

- (a) Lecta Group has no control and no significant influence in these companies.
- (b) Immateriality.

Other comments

- On 29 May 2017, Condat Energie Biomasse SAS was incorporated in France. Its sole activity until today was the presentation on 1 June 2017 of a proposal in response to a public tender organized by the French Authorities for biomass energy. This public tender was cancelled in 2018.
- On 17 December 2018, OpenText Corporation acquired Liaison Technologies Inc, of which the 0.1664% participation of Sub Lecta SA.

3. Lecta capital structure and Significant events

3.1. Lecta capital structure

On 27 July 2016, Lecta Group successfully completed its offering of EUR 600 M new notes ("2016 notes"):

- EUR 225 M of floating rate senior secured notes due 2022, bearing an interest rate of 3-month Euribor (with a floor at 0%) + 6.375%,
- EUR 375 M of fixed rate senior secured notes due 2023, bearing an interest rate of 6.500%,

and the negotiation of a new EUR 65 M Revolving Credit Facility bearing an interest rate of 4% due 2022 (see Note 18). The 2016 notes are listed on the Official List of the Luxembourg Stock Exchange and traded on the Euro MTF market.

3.2. Projects and plans

Lecta has Board authorization to explore projects aimed at (i) the simplification of the Group structure from a corporate and tax standpoint, (ii) the optimization of the operating organization, (iii) the strengthening of its specialty papers and distribution operations, (iv) the identification of exit opportunities, and (v) the recapitalization of the Group (see Note 18).

3.3. Organization efficiency program

The integration process covers Lecta industrial operations in Italy, France and Spain, as well as the paper distribution ones in the same countries and, additionally, Portugal. Within the Organization efficiency program, Lecta planned several cost reduction projects.

For the nine-month period ended 30 September 2019 the restructuring cash cost associated to Lecta efficiency programs was EUR (3.1) M, reported in the line "Non-recurring items" (see Note 6).

Organization Efficiency Program allows Lecta to maintain the labor costs in spite of salary increases and new job positions in relation with the investments in Specialties.

3.4. Mexican subsidiaries

In September 2019, the two Mexican subsidiaries, i.e. Lecta México S. de R.L. de C.V. and Torraspapel Servicios México S. de R.L. de C.V. were liquidated (see Note 2.2). They served as Commercial agent for the manufacturing companies of the Lecta group. As part of the shift of Lecta group business into Specialties and given the decrease in margin of the sales in Mexico, it was considered more cost efficient to have the Mexican clients dealt with directly by the Central Overseas structure in Barcelona.

3.5. Acquisition of non-controlling interests in Cogeneración Sant Joan AIE

On 21 December 2018 Torraspapel SA acquired the 49% non-controlling interests in IDAE Sant Joan AIE, and the company was renamed Cogeneración Sant Joan AIE (see Note 2.2). This acquisition was made through the exercise of the call option against a cash payment of EUR 4.1 M.

As the Non-controlling interests in Cogeneración Sant Joan AIE were EUR 10.5 M, i.e. EUR 9.1 M until December 2017 and EUR 1.4 M from January to November 2018, this acquisition increased the Group's reserves by EUR 6.4 M, i.e. EUR 5.0 M until December 2017 and EUR 1.4 M from January to November 2018 (see Statement of changes in equity). In addition, the Group now has the control of the cash held by Cogeneración Sant Joan AIE.

3.6. Temporary shutdown of Line 8 at the Condat mill in France

Lecta temporarily shut down Line 8 at its Condat mill in France starting at the end of April 2019.

The decrease in CWF demand over the last several years resulted in overcapacity in the industry. The worsening of this trend observed in the last months is the main reason for this decision.

The Condat brand product range and service levels during this period are guaranteed due to efficiency improvements and streamlining on Condat's Line 4 as well as through the contribution of the Group's other CWF paper mills.

Despite the temporary shutdown, meeting the overall demand of Lecta's CWF customers is assured, given the Group's total production capacity of more than 850,000 tons per year.

At the same time, Lecta continues working on a strategic transformation plan that will allow Condat to diversify its production.

This plan would entail the transformation of Line 8 from manufacturing CWF to manufacturing specialty papers for labels and flexible packaging, a market in which Lecta has extensive experience given its manufacturing operations in Spain (see Note 18).

3.7. Implementation of a new ERP at the Cartiere del Garda mill in Italy

In June 2019, a new Enterprise Resource Planning system was implemented in Lecta's Riva del Garda Italy paper mill. Implementation was more challenging than expected, resulting in a loss of production and deliveries of CWF from the mill, as well as extra cost. The estimated and accounted for EBITDA impacts in 2Q and 3Q 2019 were negative EUR (1.8) M and EUR (5.9) M respectively. The mill is operating normally since the month of October.

4. Information by Operating Segment

Lecta Group applied IFRS 8 "Operating Segments" as of 1 January 2009. The Chief Operating Decision Makers analyze the group activity through three lines of products and services, within a unique operating segment, "**production and sale of paper**".

The definition of **products and services** is:

- Coated Woodfree consists in the sale of fine paper manufactured by Lecta. The Coated Woodfree is quasi exclusively sold to third parties;
- Specialties consist in the sale of specialty papers manufactured by Lecta. The Specialties are quasi exclusively sold to third parties;
- Purchased Products consist in the sale of products purchased from third parties.

For products and services reporting, definitions are as follows:

- Net sales of Paper consist of Revenue reported in the Income statement less Sales of energy (see Note 5). The rationale is that the activity of Lecta is to produce and sell paper. In this context, Lecta operates cogeneration plants that burn gas and produce electricity and steam. The production of steam is internally consumed, while the production of electricity can be internally consumed or sold to the grid. For "Operating Segment" reporting, the sale of electricity to the grid is not considered as revenue but as reduction in energy cost to produce paper.
- EBITDA is the EBITDA reported in the Income statement. There is no significant non-cash expense within the EBITDA.
- Non-current assets is the sum of Property, plant and equipment, Investment properties, Other intangible assets and Biological assets reported in the Statement of Financial Position. Following items are not included: Goodwill, Investment in associates, Available-for-sale financial investments, Deferred income tax assets, Non-current income tax receivable, Other non-current receivables and Non-current assets held for sale.

The intra-segment and inter-segment sales are made at market price.

4.1. Information about profit or loss

Property, plant and equipment

In 2019, Torraspapel SA and Condat SAS sold some obsolete equipment and a small house against a total payment of EUR 98 K, leading to a pre-tax capital loss of EUR (26) K.

In 2018, Torraspapel SA sold three long time unused offices in Bilbao against a payment of EUR 176 K leading to a pre-tax capital gain of EUR 111 K.

Unlisted securities

Following the disposal of Liaison shares made in December 2018, reversal of the impairment on non-consolidated shares of EUR 132 K (see also Note 10).

Ineffective portion in the variation of cash flow hedging derivatives

This line was the consequence of the introduction of IAS 32 & 39 (see Note 1.36 of Lecta annual report).

Organization efficiency program (see Note 3.3)

The Organization efficiency program is a body of several plans, aimed at improving the group's competitiveness.

Recapitalization

The fees and costs associated to the recapitalization of the Group (see Notes 3.1, 3.2 and 18) are reported in this line. They amounted to EUR 1.8 M in 3Q2019.

Other non-recurring items

In 2019, this line included a capital loss of EUR (341) K in Torraspapel following the disposal of an unexploited piece of land with standing timber.

In 2018, this line included EUR (171) K in relation with the closing of Line 6 in Condat, and EUR (160) K of prescribed VAT receivable in Torraspapel.

7. Income tax in the income statement

(in EUR K)	January to September

Current tax	(2,818)	(5,997)
Deferred tax	(2,025)	(296)
Income / (Expense)	(4,844)	(6,294)

The deferred tax charge of EUR (2,025) K booked in 2019 was the result of:

- EUR (1,723) K of net deferred tax charge on tax losses, used against taxable profits
- EUR (302) K of deferred tax charge on temporary differences.

The deferred tax charge of EUR (296) K booked in 2018 was the result of:

- EUR (289) K of net deferred tax charge on tax losses, used against taxable profits
- EUR (7) K of deferred tax charge on temporary differences.

8. Earnings per share

(in EUR K)	January to September	
	2019	2018

Total	565,862	565,862
Earnings per share (in EUR)		
Basic	(59.1)	(6.9)
Diluted	(59.1)	(6.9)

“Basic earnings per share” were computed on the basis of the weighted average number of shares issued after deduction of the weighted average number of shares owned by Lecta Group consolidated companies (none for these two years).

“Diluted earnings per share” took into account share equivalents having a dilutive effect after deduction of the weighted average number of share equivalents owned by Lecta Group consolidated companies. The dilutive effect of warrants was calculated using the notional investment method for which the Net earnings were adjusted to include a notional after tax interest income on proceeds coming from the sale of warrants.

Nota

IAS 33 paragraph 43 requires that the diluted earnings per share does not assume conversion, exercise or other issue of potential ordinary shares that would have an anti-dilutive effect on earnings per share.

Cash flow hedge is used to cover the exposure to variability in cash flows that is attributable to a particular risk associated with a forecast transaction.

In Lecta Group, these are foreign currency, interest rate and energy price hedging instruments (forward, option, cap, floor, collar, swap...). The portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is recognized directly in the line "Net incomes (expenses) recognized directly through Equity" against "Other receivables" or "Other payables". It is removed from Equity when the hedged item affects the Income statement. The ineffective portion of gain or loss is immediately recognized in the line "Non-recurring items" of the Income statement (see Note 6).

Unlisted securities: following the disposal of Liaison shares made in December 2018, reversal of the adjustment of fair value on non-consolidated shares of EUR (132) K (see also Note 6).

11. Property, plant and equipment and Investment properties

During the nine-month period ended 30 September 2019, Lecta Group acquired Property, plant and equipment with a cost of EUR 41.3 M compared to EUR 41.1 M in the same period of 2018.

As at 1 January 2019, following the implementation of IFRS 16 "Leases", Property, plant and equipment included EUR 24.8 M of Right-Of-Use assets (see Note 1.2).

As at 30 September 2019, Investment properties of EUR 1,363 K consisted in plots of land in Amorebieta / Carmen (EUR 540 K) and Sarrià de Ter (EUR 823 K).

As at 1 January 2019, following the implementation of IFRS 16 “Leases”, Interest-bearing borrowings and Current portion of Interest-bearing borrowings included EUR 24.8 M of Lease liabilities (see Note 1.2).

During the nine-month period ended 30 September 2019, the proceeds from borrowings net of repayment of borrowings was EUR 50.4 M.

13. Capital commitments

As at 30 September 2019, Lecta Group had firm commitments in relation with orders of Property, plant and equipment net of advances to suppliers of EUR 23.4 M.

These commitments were allocated as follows:

- EUR 1.8 M in Italy
- EUR 0.7 M in France
- EUR 20.9 M in Spain

14. Related party disclosures

14.1. Transactions with non-consolidated companies

(in EUR K)		January to September			31 December 2018	
		Sales to related parties	(Purchases) from related parties	Finance (costs) from related parties	30 September 2019	
					Amounts owed by related parties	Amounts owed to related parties

SVT SAS	2018	0	(944)	0	0	201
	2019	0	(1,113)	0	0	242

These companies were non-consolidated because of absence of control or immateriality (see Note 2.3)
All the transactions with related parties were made on an arm's length basis.

15. Hedging derivatives on foreign currencies

The Lecta Group operations are impacted by the fluctuations of the non-euro currencies, mainly USD, CAD and GBP.

At 30 September 2019, ordinary sales and purchases were specifically hedged through:

- Forward agreements on realized sales in foreign currencies: EUR 26.1 M
- Forward agreements on realized purchases in foreign currencies: EUR 8.9 M

The impact of these contracts has been accounted for as fair value hedging, hence recognized in the Income statement (see Note 1.36 of Lecta annual report).

At 30 September 2019, there were no options on future sales in foreign currencies and on future purchases in foreign currencies. Therefore, nothing had to be fair valued through Income statement.

16. Hedging derivatives on interest rates

Cogeneración Sant Joan AIE:

[1] On 23 December 2015, the interest rate of 70% of the forecast debt in IDAE Sant Joan AIE was hedged with a Cap indexed to 3-month Euribor for the period from June 2016 to September 2018. This Cap took effect 3 months after the termination of the prior interest rates hedge of the forecast debt in IDAE Sant Joan AIE.

The main characteristics of the above instrument is as follows:

(in EUR K)

Instrument	Notional amount	Premium paid	Effective date	Termination date	Floor rate	Cap rate	Strike	Value at 30 Sep 2019		
								Intrinsic	Time	Total
[1] Cap 3M Euribor	Max 8,000	20	30/Jun/2016	30/Sep/2018		0.00%		0	0	0

The impact of this agreement has been accounted for as cash flow hedge.

For the cash flow hedge, the intrinsic value, considered as effective, was recognized directly in Equity while the time value was considered as ineffective, and thus recognized in the Income statement. For the fair value hedge, any gain or loss from re-measuring the hedging instrument at fair value is recognized in the Income statement.

17. Hedging derivatives on raw materials prices

At 30 September 2019, there were no hedging derivatives on raw materials prices.

18. Events after the Statement of Financial Position date

On 1 November 2019, Lecta SA (“**Lecta**”) announced that a Lock-Up Agreement (“**LUA**”) was entered into by Lecta, certain of its subsidiaries, a majority of holders of its existing senior secured fixed rate notes (“**Fixed Rate Notes**”) and senior secured floating rate notes (“**Floating Rate Notes**”) (together the “**Existing Notes**”) (see Note 3.1) and holders of the majority in value of the existing debt under the Group’s revolving credit facility (“**RCF**”), pursuant to which the parties thereto agreed, among other things, to take all actions which are reasonably requested and necessary in order to support, implement and facilitate the implementation of a comprehensive recapitalization transaction (“**Recapitalization**”).

Execution of the LUA marked an important step in Lecta’s efforts to implement the Recapitalization, which will materially strengthen and deleverage the Group’s balance sheet and enhance its liquidity position to allow it to continue its transformation into a specialty paper group of companies. It is intended that the restructured Group will be controlled by the holders of the Existing Notes following the completion of the Recapitalization (the “**Effective Date**”).

On 27 November 2019, Lecta announced that:

- (i) 83% of the aggregate outstanding principal under the Existing Notes; and
 - (ii) 69% of the outstanding principal amount under the RCF,
- have entered into or acceded to the LUA. Accordingly, sufficient holders of the Existing Notes have signed-up for the purpose of the Group being proposing the Scheme (as described below).

In addition, the Group is improving its working capital facilities. The Group:

- (i) Has entered into a receivables factoring financing in France with La Banque Postale in an amount up to EUR 50M;
- (ii) Is in an advanced stage of negotiation to implement a receivables securitization in Spain in an amount exceeding EUR 40M.

Furthermore, further to the constructive discussions between the Group and certain French authorities, the Group received comfort letters regarding the support of the group's operations in France and expects to obtain further commitments by the relevant authorities around the Effective Date.

Lecta has engaged Lucid Issuer Services Limited to act as calculation agent under the LUA ("**Calculation Agent**"). The noteholders are encouraged to contact the Calculation Agent at lecta@lucid-is.com to access further information relating to the Recapitalization and for details of how to accede to the LUA.

The LUA

The parties to the LUA have, broadly, agreed to support the implementation of the Recapitalization on the basis of the agreed terms set out below. In particular, it is worth noting that:

- The holders of Floating Rate Notes agreed to forbear from exercising any rights arising from Lecta's non-payment of interest in respect of those notes which would otherwise have been payable on 1 November 2019;
- The holders of the Existing Notes have agreed to forbear from taking any enforcement action that they would otherwise be entitled to take as a result of any default.

Key Terms of Recapitalization

1. The existing EUR 65 M RCF is fully repaid, and a new super senior multicurrency RCF in an amount of EUR 115 M ("**New RCF**") is made available to the Group on or around the Effective Date. It is contemplated that the New RCF will mature two years from the Effective Date, subject to a one-year extension at the new Group's election. The New RCF will rank senior to the New Senior Notes (which are described below).
2. The Existing Notes will be released by the holders of those notes in consideration for:
 - (i) EUR 200 M of new senior secured notes ("**New Senior Notes**") which will bear cash interest at a rate of EURIBOR (subject to a zero floor) plus a margin equal to 6.00% per annum, and mature five years from the Effective Date. The New Senior Notes will be secured, listed on the Official List of the Luxembourg Stock Exchange, have standard protections and are expected to be rated. The New Senior Notes will be structurally and contractually subordinated to the New RCF;
 - (ii) EUR 95 M of new junior unsecured notes ("**Junior Notes**"), which will bear cash interest at the rate of EURIBOR (subject to a zero floor) plus a margin equal to 0.25% per annum and a capitalized PIK interest at a rate of 7.00%, and mature eight years from the Effective Date. The Junior Notes are expected to be rated and will (i) sit outside the Consolidation Perimeter of the operating group, (ii) be structurally and contractually subordinated to the New Senior Notes and the New RCF (iii) have no security or guarantees; and
 - (iii) Ordinary shares representing 95% of the share capital of a newly incorporated entity ("**Topco**"), which will be the top company in the restructured Group on a fully diluted basis and contractually stapled to the Junior Notes (the "**New Equity**"), representing equity ownership in the Group.
3. The holders of Fixed Rate Notes and Floating Rate Notes who have acceded to the LUA on or before 29 November 2019 (and who do not breach the LUA in any material way) will receive a consent fee, pursuant to the issuance (i) of EUR 5 M of Junior Notes and (ii) of 5% of shares in Topco.

Implementation

An English scheme of arrangement ("**Scheme**") is being proposed to facilitate the implementation of the broader Recapitalization. The Scheme will only become effective and legally binding following

- (1) Approval by a majority in number representing 75% in value of the Existing Notes present and voting,
- (2) The Court making an order sanctioning the Scheme; and
- (3) A copy of such order being filed at Companies House.

In order to launch the Scheme, certain other condition will need to have been achieved.

Projected Financial Information

A summary of the Group's projected financial information is set out below:

<i>In € million</i>	2019	2020	2021	2022	2023
Net Sales	1,294	1,375	1,408	1,451	1,429
EBITDA	93 ⁽¹⁾	122	134	152	151
Capex	60	99	80	42	30
Unlevered Free Cash Flow	(59)	15	43	93	108

(1) Includes €19m of non-recurring items, of which €10m are non-cash items relating to valuation adjustments to inventories

The Group's EBITDA for the financial year 2019 is projected at EUR 93 M. The projected figure takes into account EUR 19 M of non-recurrent but operating charges, predominantly comprising:

- Losses related to the challenging implementation of the ERP system in Riva del Garda Italy paper mill (circa EUR 8 M); and
- Expenses relating to valuation adjustments to WIP and Finished Goods inventories (a non-cash impact of circa EUR 10 M).

The segmental split of the projected EBITDA for the financial year 2019 is set out below:

- Specialties: EUR 55 M (59%);
- CWF: EUR 29 M (32%);
- Purchased Products: EUR 9 M (10%).

EBITDA is projected to increase from EUR 93 M in 2019 (EUR 112 M excluding non-recurrent but operating charges) to EUR 151 M in 2023. This increase is primarily driven by growth in the Specialties segment, particularly as a result of (i) The ramp up of investments in thermal and self-adhesive paper products (which have largely been incurred); and (ii) New capital expenditure in Condat for the transformation of Line 8 to Glassine paper and power / energy improvements.

Next Steps

The Group will continue working with its financial stakeholders to implement the Recapitalization and expects to complete the Recapitalization in Q1 2020.

Questions about the Recapitalization and details of how to accede to the LUA have to be directed to Lucid at the telephone numbers and addresses listed below. All holders of the Existing Notes are eligible to participate in the LUA. All documentation relating to LUA, together with any updates, will be available on the dedicated website: <https://www.lucid-is.com/lecta/>
