NOTES

1. Basis of preparation and accounting policies

1.1. Basis of preparation

The interim condensed consolidated financial statements of Lecta Group for the three months ended 31 March 2018 have been prepared in accordance with IAS 34 Interim Financial Reporting.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2017.

1.2. Significant accounting policies

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2017.

Since 1 January 2018, Lecta complemented the accounting policy of CO₂ emission rights. The rights that have been granted free of charge by each National Authority continue not to be recognized. But as they are granted at the beginning of the year, they are used to fully neutralize the CO₂ emissions until there is no more rights instead of being allocated over the twelve months of the year. This translates into no CO₂ cost in the three-month period ended as at 31 March 2018 vs EUR (0.2) M in the same period of 2017.

New amended IAS or interpretations effective as of 1 January 2018:

- In July 2014, the IASB completed the final element of its comprehensive response to the financial crisis by issuing **IFRS 9** Financial Instruments (replacement of IAS 39). The package of improvements introduced by IFRS 9 includes a logical model for classification and measurement, a single, forward-looking 'expected loss' impairment model and a substantially-reformed approach to hedge accounting. The new Standard will come into effect on 1 January 2018 with early application permitted.

Lecta Group evaluated the effect of the above standard and concluded that its impact is limited to the application of the expected loss impairment model to its trade receivables. The increase in impairment of trade receivables at 1 January 2018 is EUR 0.2 M.

Additionally, Lecta Group started the analysis of IFRS 15 "Revenue from Contracts with Customers" and IFRS 16 "Leases" effective for annual periods beginning on or after 1 January 2018 and 1 January 2019, respectively.

- **IFRS 15** "Revenue from Contracts with Customers" was issued in May 2014 and establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The new revenue standard will supersede all current revenue recognition requirements under IFRS. The new standard is applicable for annual periods beginning on or after 1 January 2018.

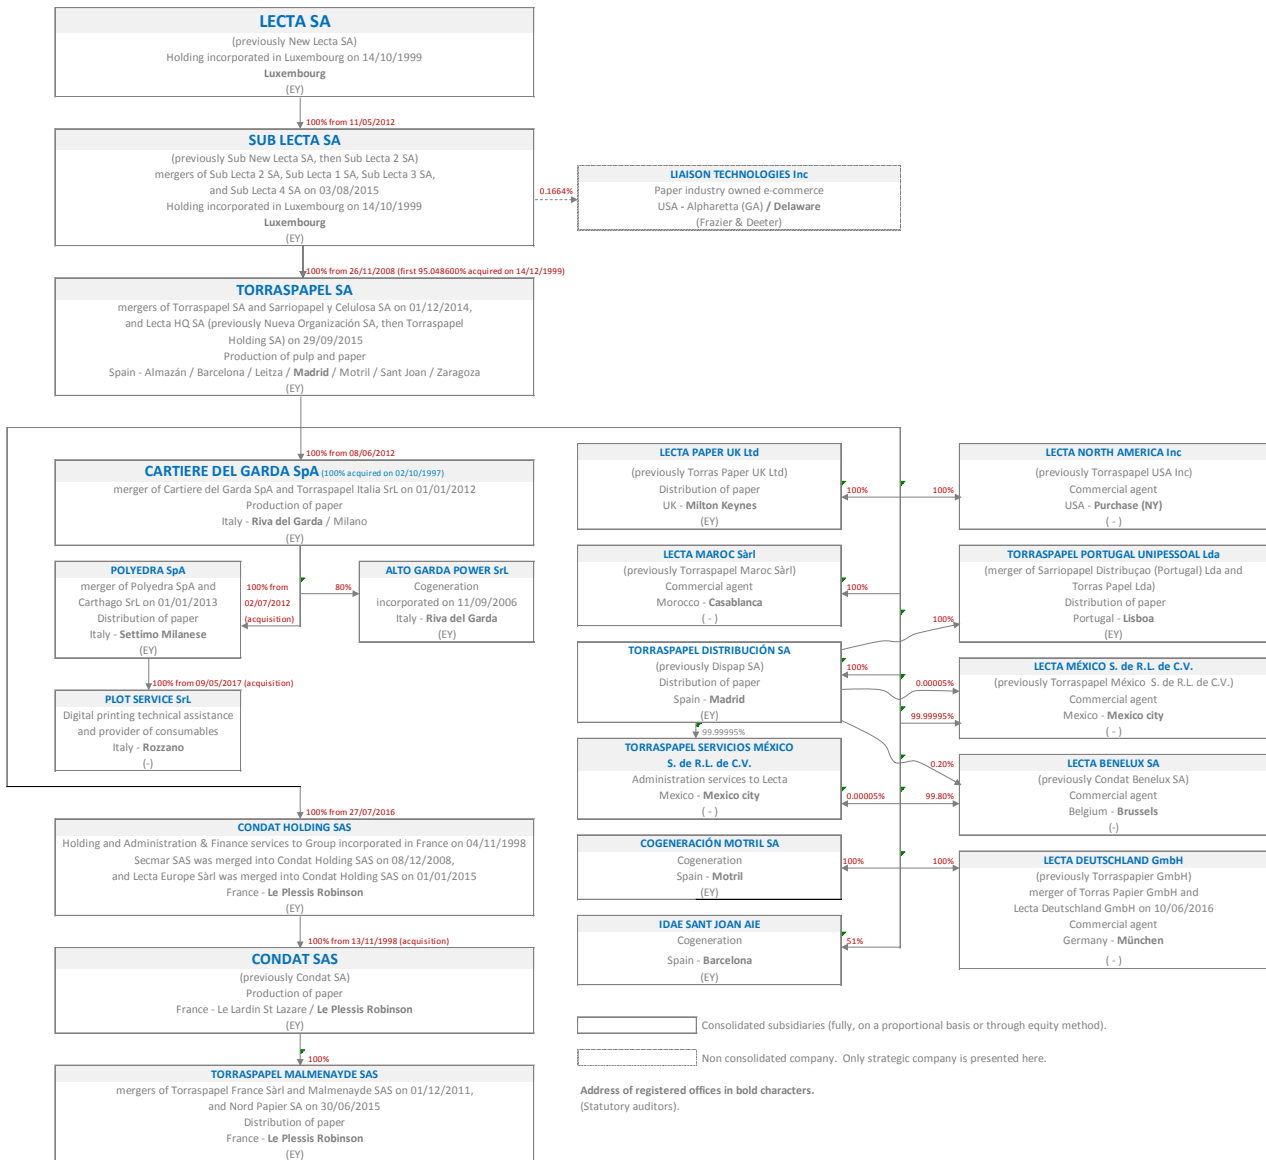

Lecta Group evaluated the effect of the above standard and concluded that its impact is immaterial.

- **IFRS 16** "Leases" was issued in January 2016. It replaces IAS 17 "Leases". The major change introduced by the new Standard is that leases will be brought onto companies' balance sheets, increasing the visibility of their assets and liabilities. IFRS 16 removes the classification of leases as either operating leases or finance leases (for the lessee - the lease customer), treating all leases as finance leases. The new standard is applicable for annual periods beginning on or after 1 January 2019.

Lecta Group is in the process of analyzing the impact of this standard on the group.

On 21 June 2017, Lecta Board decided not to pursue a listing at this point despite the positive response shown by some potential investors, and to continue assessing all options to optimize value for all stakeholders.

3.3. Organization efficiency program

The integration process covers Lecta industrial operations in Italy, France and Spain, as well as the paper distribution ones in the same countries and, additionally, Portugal. Within the Organization efficiency program, Lecta planned several cost reduction projects.

For the three-month period ended 31 March 2018 the restructuring cash cost associated to Lecta efficiency programs was EUR (0.6) M, reported in the line “Non-recurring items” (see Note 6).

Organization Efficiency Program allows Lecta to maintain the labor costs in spite of salary increases and new job positions in relation with the investments in Specialties.

3.4. Acquisition of Plot Service Srl

On 9 May 2017, Lecta – through its subsidiary Polyedra SpA - completed the acquisition of 100% shares in Plot Service Srl. This company, headquartered in Rozzano (Milan), is specialized in technical assistance for professional large format graphic peripherals, such as plotters, digital printers, scanners and digitizers. Plot Service Srl has service centers located throughout the country with highly qualified and specialized technicians. This service network will complement the already extensive presence of Polyedra SpA throughout Italy.

This acquisition reaffirms Lecta's desire to further strengthen its leading position in the Print & Communication, Sign & Display, and Packaging segments, progressively addressing the market more as a partner offering complete solutions to its customers' communication needs.

The cost of acquisition was EUR 13 K. As the part of equity purchased was also EUR 13 K, there was no Goodwill to be considered. The purchase price allocation has been performed, and the measurement period will be closed with the publication of 30 June 2018 accounts.

At acquisition, Cash & cash equivalents net of Interest-bearing borrowings was EUR 39 K.

The fees and expenses in relation with this acquisition amounted to EUR 4 K.

- Interest 6-month Euribor (with a floor at 0%) + 1.650%

The existing hedging instrument, a Collar indexed to 6-month Euribor for the period from June 2007 to December 2018, was terminated on 28 February 2017 for a cost of 380k€ (see Note 16).

4. Information by Operating Segment

Lecta Group applied IFRS 8 “Operating Segments” as of 1 January 2009. The Chief Operating Decision Makers analyze the group activity through three lines of products and services, within a unique operating segment, “**production and sale of paper**”.

The definition of **products and services** is:

- Coated Woodfree consists in the sale of fine paper manufactured by Lecta. The Coated Woodfree is quasi exclusively sold to third parties;
- Specialties consist in the sale of specialty papers manufactured by Lecta. The Specialties are quasi exclusively sold to third parties;
- Purchased Products consist in the sale of products purchased from third parties.

For products and services reporting, definitions are as follows:

- Net sales of Paper consist of Revenue reported in the Income statement less Sales of energy (see Note 5). The rationale is that the activity of Lecta is to produce and sell paper. In this context, Lecta operates cogeneration plants that burn gas and produce electricity and steam. The production of steam is internally consumed, while the production of electricity can be internally consumed or sold to the grid. For “Operating Segment” reporting, the sale of electricity to the grid is not considered as revenue but as reduction in energy cost to produce paper.
- EBITDA is the EBITDA reported in the Income statement. There is no significant non-cash expense within the EBITDA.
- Non-current assets is the sum of Property, plant and equipment, Investment properties, Other intangible assets and Biological assets reported in the Statement of Financial Position. Following items are not included: Goodwill, Investment in associates, Available-for-sale financial investments, Deferred income tax assets, Non-current income tax receivable, Other non-current receivables and Non-current assets held for sale.

The intra-segment and inter-segment sales are made at market price.

4.2. Information about geographical areas

Organization efficiency program (see Note 3.3)

The Organization efficiency program is a body of several plans, aimed at improving the group's competitiveness. The charges for the three months of the year were as follows:

The deferred tax profit of EUR 784 K booked in 2017 was the result of:

| Earnings per share (in EUR) | | |
| Basic | (7.4) | 6.3 |
| Diluted | (7.4) | 6.2 |

“Basic earnings per share” were computed on the basis of the weighted average number of shares issued after deduction of the weighted average number of shares owned by Lecta Group consolidated companies (none for these two years).

“Diluted earnings per share” took into account share equivalents having a dilutive effect after deduction of the weighted average number of share equivalents owned by Lecta Group consolidated companies. The dilutive effect of warrants was calculated using the notional investment method for which the Net earnings were adjusted to include a notional after tax interest income on proceeds coming from the sale of warrants.

Nota

IAS 33 paragraph 43 requires that the diluted earnings per share does not assume conversion, exercise or other issue of potential ordinary shares that would have an anti-dilutive effect on earnings per share.

Cash flow hedge is used to cover the exposure to variability in cash flows that is attributable to a particular risk associated with a forecast transaction.

In Lecta Group, these are foreign currency, interest rate and energy price hedging instruments (forward, option, cap, floor, collar, swap...). The portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is recognized directly in the line "Net incomes (expenses) recognized directly through Equity" against "Other receivables" or "Other payables". It is removed from Equity when the hedged item affects the Income statement. The ineffective portion of gain or loss is immediately recognized in the line "Non-recurring items" of the Income statement (see Note 6).

During the three-month period ended 31 March 2018, there was no Cash flow hedges effect.

11. Property, plant and equipment and Investment properties

During the three-month period ended 31 March 2018, Lecta Group acquired Property, plant and equipment with a cost of EUR 17.3 M compared to EUR 10.0 M in the same period of 2017.

As at 31 March 2018, Investment properties of EUR 1,363 K consisted in plots of land in Amorebieta / Carmen (EUR 540 K) and Sarrià de Ter (EUR 823 K).

12. Interest-bearing borrowings

During the three-month period ended 31 March 2018, the repayment of borrowings net of proceeds from borrowings was EUR 11.7 M.

13. Capital commitments

As at 31 March 2018, Lecta Group had firm commitments in relation with orders of Property, plant and equipment net of advances to suppliers of EUR 20.3 M.

These commitments were allocated as follows:

- EUR 0.1 M in Italy
- EUR 1.3 M in France
- EUR 18.9 M in Spain

14. Related party disclosures

14.1. Transactions with non-consolidated companies

| (in EUR K) | | January to March | | | 31 December 2017 | |
|----------------|------|--------------------------|----------------------------------|--------------------------------------|---------------------------------|---------------------------------|
| | | Sales to related parties | (Purchases) from related parties | Finance (costs) from related parties | Amounts owed by related parties | Amounts owed to related parties |

| SVT SAS | 2017 | 0 | (468) | 0 | 0 | 357 |
| | 2018 | 0 | (392) | 0 | 0 | 290 |

These companies were non-consolidated because of absence of control or immateriality (see Note 2.3)
All the transactions with related parties were made on an arm's length basis.

15. Hedging derivatives on foreign currencies

The Lecta Group operations are impacted by the fluctuations of the non-euro currencies, mainly USD, CAD and GBP.

At 31 March 2018, ordinary sales and purchases were specifically hedged through:

- Forward agreements on realized sales in foreign currencies: EUR 31.1 M
- Forward agreements on realized purchases in foreign currencies: EUR 18.1 M

The impact of these contracts has been accounted for as fair value hedging, hence recognized in the Income statement (see Note 1.36 of Lecta annual report).

At 31 March 2018, there were no options on future sales in foreign currencies and on future purchases in foreign currencies. Therefore, nothing had to be fair valued through Income statement.

16. Hedging derivatives on interest rates

Alto Garda Power SrL:

[1] In March 2017, Alto Garda Power SrL refinanced its debt (see Note 3.5). On 28 February 2017, the Collar indexed to 6-month Euribor was terminated.

IDAE Sant Joan AIE:

[2] On 23 December 2015, the interest rate of 70% of the forecast debt in IDAE Sant Joan AIE was hedged with a Cap indexed to 3-month Euribor for the period from June 2016 to September 2018. This Cap took effect 3 months after the termination of the prior interest rates hedge of the forecast debt in IDAE Sant Joan AIE (See [5]).

The main characteristics of the above instruments are as follows:

(in EUR K)

| | Instrument | Notional amount | Premium paid | Effective date | Termination date | Floor rate | Cap rate | Strike |
|-----|-------------------|-----------------|--------------|----------------|------------------|------------|----------|--------|
| [1] | Collar 6M Euribor | Max 27.644 | | 29-Jun-2007 | 28-Feb-2017 | 4.05% | 5.75% | |
| [2] | Cap 3M Euribor | Max 8,000 | 20 | 30-Jun-2016 | 30-Sep-2018 | | 0.00% | |

The impact of these agreements has been accounted for as cash flow hedge, none as fair value hedge.

For the cash flow hedge, the intrinsic value, considered as effective, was recognized directly in Equity while the time value was considered as ineffective, and thus recognized in the Income statement. For the fair value hedge, any gain or loss from re-measuring the hedging instrument at fair value is recognized in the Income statement

17. Hedging derivatives on raw materials prices

There were no hedging derivatives on raw materials prices.

18. Events after the Statement of Financial Position date

Nothing to be reported.
