

Adestor BC500

ACRYLIC ADHESIVE

The moment you want to capture every single detail of that special day

Enhanced water and humidity resistance for your wine and beverage labels.

- Specially developed for wine and beverage applications, the BC500 adhesive provides excellent adhesion to glass. Its good resistance to humidity is key for the bottle filling process as well as ice bucket conditions. Combined with suitable face materials it is also recommended for bottle-neck labels.
- BC500 is available with Standard and Wet-Strength (WS) label face-stocks and Glassine and PET liners.

TECHNICAL SPECIFICATIONS

Description Acrylic permanent adhesive for non-recyclable bottles. The printed label resists a minimum of 2 hours ice water submersion (Ice Test).

Shelf life 2 years at 20°C and RH 50% from date of manufacture.

Property	Norm	Units	Value	Tolerance
Adhesion (Peel 180° 20'/stainless steel)	FTM 1	N/25mm	17	≥ 15
Shear (1kg, in ² /glass)	FTM 8	min	400	≥ 180
Tack (Quick Stick stainless steel)	FTM 9	N	13	≥ 9
Minimum labelling temperature		°C	+5	
Maximum service temperature		°C	-20	
Maximum service temperature		°C	+80	

Values are subject to change without notice. Last updated 2/25/2019.

Certifications Our self-adhesive mill is certified to the strictest environmental standards ISO 14001 and EMAS and has successfully completed audits for ISO 50001, ISO 9001 and OHSAS 18001 certification. Adestor paper products are available with PEFC™ and FSC® chain of custody certificates upon request.
